

Join the

Gigabit generation

Service oriented

No wait times or automated robo calls. Get help over the phone by talking directly to our service engineers or schedule a free appointment for the engineer to come to you!

Reliable network

OpenFiber's cutting edge fiber optic network has superior speeds and is ultra reliable. Ideal for home workers, as well as for streaming a movie, downloading at high speed and playing favorite online games. It is all possible without restrictions.

Internet and television for your studio

How can it be so affordable? We focus on the things you need, and removed the things you don't. No required apps or hardware, just internet and tv. Save almost 40 euros compared to our competitors. Spend your savings on Netflix, Spotify, Disney+, or anything else you want. The choice is yours.
